TOWN OF LAKEVIEW

Public Notice: Clarification Regarding Data Center Proposal

The Town Council wishes to clarify information circulating in the community regarding a proposed data center in Lakeview.

No data center has been or would be approved by the Mayor or Town Council. As one of many permitting agencies, we have never received a formal request for a permit on this matter.

On September 1, 2026, the Town received a preliminary proposal from RevTech Solutions, ServerDomes and Tiger Industrial Holdings concerning a potential data center project.

The Town Council has a fiduciary responsibility to consider proposals submitted by businesses and other interested parties in accordance with established procedures. **Receiving a proposal does not mean the Town supports it, endorses it or has approved it.**

The Council's November 24 meeting agenda includes official acceptance of proposals received for the Red Rock site. This agenda item is not a public hearing nor an approval of any proposed data center development. These proposals will be forwarded to the owners of the Red Rock plant as a courtesy for their consideration.

The Town Council appreciates the community's interest and remains committed to accurate information, transparency and following the proper procedures.
