Michele Parry
Lakeview Town Manager
Lakeview, OR 97630

Dear Michele:

Lakeview Community Partnership is excited to support the Town of Lakeview in their efforts to rehabilitate McDonald Park.

The Lakeview Community Partnership is an Oregon Main Street Program with the mission of economic revitalization in downtown Lakeview with projects ranging from renovation and management of our historic Alger Theater, facilitation of Downtown Partner Businesses for downtown planning and business development resource sharing.

Our community has been blessed to have McDonald Park. The park is open year-round with the kiddie pool open during summer months. The park and kiddie pool have fallen into disrepair needing setting benches, a new functional splash pad area for kids in our community play and renovating the pavilion and for families to gather and enjoy being outside.

Our community will once again enjoy McDonald park as a much-needed center for families to gather and our children to have safe and fun recreation.

Sincerely,

A handwritten signature in black ink that reads 'Ginger Casto'.

To Whom It May Concern,

I am writing in support of the Town of Lakeview's application for the Oregon Parks and Recreation local government grant to rehabilitate Lakeview's McDonald Park.

As an agency devoted to Lake County's health and wellness, this project is of vital interest and importance to Lake Health District. Being outdoors is an excellent way to get in shape and stay healthy. Having a park nearby provides low-impact cardiovascular workouts for many with physical limitations, including seniors and people recovering from surgery.

Renovating McDonald park to an all-age park will create a more positive experience for people in recovery and in our memory care center which will further encourage residents & visitors to use the park as a place of restoration.

We're grateful to have this wonderful resource in our community, and we support the town's work to make McDonald park better than ever.

Sincerely,

Charles B. Tveit

To whom it may concern,

I am writing this letter in support of the Town of Lakeview, Oregon. We are a small rural town with strong values and even stronger ties to our land, and each other. Our community thrives on activities that promote togetherness, health and wellness. I would like to express our full support of the proposed McDonald Park Rehabilitation project.

McDonald Park is located by Lake County Hospital, US-395 and a surrounding neighborhood providing outdoor connections locally and to those who are traveling to Lakeview and beyond.

I look forward to McDonald Park better serving our community and visitors recreationally and by enhancing our community. The park will benefit both local residents and visitors.

Please help our community combat the new normal by helping us provide the necessary funding to our town to keep our families active and healthy.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Bogardus", with a stylized flourish at the end.
