Comments and/or other requirements:

---

---

---

Date: \_\_\_\_\_ By: \_\_\_\_\_  
Jeff Marshall, Public Works Director

DATE: \_\_\_\_\_ RECEIVED BY: \_\_\_\_\_

1. Attach a County Assessor's Map of your property showing where you want the meter. The meter location, however, may depend upon which street the selected water main is located. The Public Works Supervisor will make this determination.
2. The Town will supply a connection collar at the sewer main for your sewer line. You must install the main. After your sewer line is connected to the main, IT MUST BE INSPECTED BY THE PUBLIC WORKS SUPERVISOR BEFORE ANY BACK-FILL IS PUT IN PLACE.
3. For new construction, the Building Official must sign this application based on plan approval prior to construction if water/sewer service is desired prior to or during construction, and before occupancy.
4. A back-flow device may be required. The Public Works Supervisor shall make this decision based on current laws.
5. When water service is completed, all lines running from the meter to the residence, business, etc. are the responsibility of the applicant. Water service installation will be commenced on the first available working day after the applicant is approved, fees paid and service requested by the applicant. Sewer installation inspection will be made on any working day upon request by the applicant.

6. The Town guarantees the accurate operation of the water meter. If the meter should fail, the Town will replace it at no cost to the applicant. If the applicant demands the meter be replaced and no fault is found with the meter, the applicant must pay a fee of \$300.00 as provided by Ordinance.
  7. A copy of this application will be given to the applicant in person or by mail upon completion of the water or sewer service installation.
- 

**NOTIFICATION:**

Water or Sewer Services requested has been completed on \_\_\_\_\_ day of \_\_\_\_\_ 2021

Water to meter is \_\_\_\_\_ TURNED ON \_\_\_\_\_ TURNED OFF\*

\*(if turned OFF. Notify the Utility Department to turn on when ready. It is a violation of Ordinance for Application/Occupant to turn water ON or OFF. Shut-Off valve is property of the Town of Lakeview)

It is recommended that the Applicant install a shut off valve on the Property side of the meter.
